Chafer

Operating Tips:

- **Caution! Roll Top chafer has a pinch point between the frame and the roll top lid!**
- Use only canned sterno fuel in the burner.
- Fill the water pan of chafer with hot water before lighting canned sterno fuel. To allow adequate room for food pans to rest inside of water pan, do not over fill the pans.
- To light canned sterno fuel, pry the lid from the canned sterno fuel, and place canned sterno fuel into metal chafer sterno cup. Light fuel.
- Low flame is sufficient to maintain proper heat.
- Sterno should last for 2-3 hours.
- Keep sterno fuel away from open flame or hot stove.
- Stainless steel food pans can be used for cooking and/or placed in the oven to retain heat.
- Check water pan during use to maintain sufficient water level. **DO NOT USE WITHOUT WATER!**
- To protect your table linens or serving surface, consider an underliner tray when using equipment that has burners.

Cleaning Instructions:

- Scrape and wash food/soup pans with dish soap and water. Never use harsh abrasives.
- Dump used sterno fuel cans out. **DO NOT THROW AWAY THE METAL STERNO CUP HOLDERS THAT CAME WITH THE CHAFER, THEY NEED TO BE RETURNED TO HEJNY RENTAL!**
- Please return all parts supplied with the chafer to avoid additional charges!!

Chafers include: Frame, water pan, 2" full size food pan, 2" or 4" additional pan (s), lid or attached roll top, and sterno fuel holders.

Note: There will be a \$25 cleaning charge for chafers not returned clean.

Note: Please keep boxes in good condition.

Need It. Rent It!
